save the date: Knit 1 LA trunk show

Update: June 10, 2018

[If you would like a downloadable pdf version of this pattern click here.](#)

For those of you who live in the LA area stop by [The Little Knittery](#) December 7th from 6-9pm for the first annual Knit 1 LA trunk show.

You all know how much I love a good super chunky yarn and how much I use [Cascade's Magnum Super Chunky!](#) So on hand I'll have new designs using Magnum and the samples for some of my most popular patterns that use Magnum as well.

One of my new designs is this free pattern for an open work infinity scarf. Made using 1 skein of Magnum & #19's it's an easy project and a great gift.

the Openwork Infinity Scarf

Materials:

1 skein Magnum Super Chunky by Cascade (123yds)

#19 needles. The piece is worked flat so either straight or circular needles are fine.

Finished measurements: 8.75"x @67" (before folding)

Cast on 12 sts.

Row 1: Sl 1 (slip stitch as if to purl), *K1, (yo, k2tog) twice; repeat from * end k1

Repeat Row 1 every row until you have enough yarn left to bind off. Bind off.

Sew ends together to make a giant loop (see pic below), wear & enjoy!

Here's a shortened version of the Openwork Cowl. This I worked for @ 24" and it took about 40 yards of Magnum by Cascade.

I also reworked the [Misti Net Scarf](#) in Magnum to have at the show and I really like the results! The Magnum version is very lightweight and lofty for such a large scarf. Again, an easy 1 skein project that makes a great gift! (pattern below)

the Open Work Scarf

Materials:

1 skein Magnum Super Chunky by Cascade (123yds)

#19 circular needles. I would use at least a 29" since the scarf is worked lengthwise.

Finished measurements: 5"(not pulled) x @103" (w/out fringe)

Note: these scarves are worked lengthwise.

Cast on 100 stitches.

Row 1: Sl 1 (purlwise), * yo, k2tog * k1

Repeat this row 10 times.

Bind off.

I used one strand of yarn per fringe piece. I liked a more raw edge to the fringe so I pulled the yarn instead of cutting it. Attach fringe, wear & be warm!

Hope to see you there!
